

Project Spotlight

Next 100 Coalition *Awaken*

The Next 100 Coalition tackles the greatest environmental challenges of today and tomorrow. Mukuyu co-designed and facilitated strategic planning session as well as educational workshops, and learning cohorts. Topics included ocean literacy, environmental justice, community engagement, regulatory policy making.

National Association for Interpretation *Align*

NAI advances the profession of heritage interpretation in the US and over thirty other nations. Mukuyu designed and led a participatory process to reflect and assess strengths/growth areas, collectively identify priority areas, tasks/timelines, resource needs, and measures of success to inform a new 5 year strategic plan.

EcoInclusive *Activate*

Ecoinclusive builds culturally diverse and competent teams for social and environmental organizations. Mukuyu designed and facilitated a year long 'policy to practice' learning community with 15 Summit for Action participants focused on living the 1991 Environmental Justice Principles in our personal and professional lives.

The rights of human beings and the rights of nature are two names of the same dignity.

- Eduardo Galeano

MUKUYU

About Us

Established in 2020, Mukuyu Collective is a social enterprise building climate and cultural resilience – one relationship at time.

We work with our clients – nonprofits, businesses, and governmental agencies – to align purpose with practices, expand cultural competence, and co-create pathways that amplify impact and outcomes for collective liberation and environmental stewardship. We also create educational materials for children and families.

Our Values

Integrity

Our word is all we truly own. Is it true? Is it necessary?

Belief

Like hope, belief is a discipline. Let consistent action build confidence.

Accountability

Boundaries that protect me, you, and every other being.

Self-discovery

Our work starts in the mirror then extends to the past, present, and future.

Mukuyu Method

Governance | Strategic Planning | Engagement

Our consulting services center personal transformation, community activation, and multi-systems change. Whether you are in the planning, implementation, or evaluation stage of the journey, our services **awaken, align,** and **activate** towards your organization mission and goals.

AWAKEN *How did we get here?*

Focuses on needs assessment, collaborative interpretation, and collective action. Strengthens systems, policies, and protocols from within and across agencies, organizations, and businesses. Know who's on 1st and strengthen practices in governance, accountability, and complex project management.

ALIGN *How do we strengthen the team?*

Centering human self-discovery, relationships, power, and decision making, this approach allows our clients to do the individual and interpersonal work needed to transform lives, communities, and systems. In this work, our clients assess the quality of relationship and partnerships between and across individuals, teams, and stakeholders in meeting their shared goals and vision.

ACTIVATE *How do we get there?*

Through cultural competence building, relationship and power mapping, and consensus, these activate sessions are where the 'walk' meets the 'talk.' Where statements and policies meet people and reality. Co-creating pathways to progress grounded in mutual respect, transparency, and loving kindness.

Signature Speeches & Workshops

Center storytelling, audience participation, and actionable strategies to deepen climate and cultural resilience, our signature speeches and workshops stroke imagination, expand perspective, deepen cultural understanding, and harness our individual and collective power to build new worlds.

Rooted in Relationship

Dive deep into ways of knowing human relationships through self-discovery, ancestral wisdom and cultural dynamics.

Building Networked Forest

Weave individual and collective action across time, space, and place.

Answering the Call

Develop pathways to progress grounded in purpose at the individual, interpersonal, institutional, and systemic levels of change.
